

Upper Room Appendix 6: Examples of Parish Organizational Chart

This chart is only one example of a very busy Parish with many active Pillars & Ministries. Your PPC may very well begin with only a few Pillars with a few supporting Ministries. Liturgy Pillar will surely be the first! Communication is a must! Not every parish will have the same number of ministries, but the Pillars are the essential elements.

Every role within every Pillar and its Ministries has as its core purpose and ultimate end the celebration of the Eucharist, bringing the whole community together to receive from Christ a renewed strength and clearer vision for the fulfillment of the mission of the Church as lived out in the Parish.

When revising or reformulating the Organizational chart of a PPC, PPC members should first review what ministries already exist in the parish. Then they can determine under which essential Pillar those Ministries belong. Not every PPC will have the same set of Ministries, but the Pillars are the essential elements.
